ANNOUNCEMENTS

The McEnelly Singing orchestra, which is to play at the Fifth Co. dance is filling the galleries and dance floors in the largest halls in the big cities of New England and New York state. They have the reputation of return dates everywhere. It wins on merit, not tradition. Each member of the orchestra is a specialist and offers an act.

DAVIS THEATRE.

Three New Acts Today and Feature Photoplays, All Big Meadliners.

For the remainder of this week another first class bill of vaudeville and photoplays has been booked with Mareno. Nevara and Mareno as the special attraction, this trio of young men have what is without a doubt the streatest council acrostest council acrostest. greatest comedy acrobatic act in vaudeville today. The tricks they do are original and entirely different from anything ever seen here and no one should miss seeing them. You will be amazed at their wonderful feats and amused at their funny antics. The pext act is Ross and Benson, a team of clever entertainers who do a pretty singing and dancing oddity introducing some of the latest dances along with some fine singing numbers. The cos-tumes worn in this act are of the latest style and lend a distinction to the act. The third act is the wonderful accordion payer Joe Pino. The way this fellow manipulates this instrument is something marvelous. In the photo-plays today the feature is called A Modern Rip Van Winkle, produced by Modern Rip Van Winkle, produced by the American company in two reels; other photoplays are, Where the Mountains Meet, a thrilling Reliance western drama. Our Mutual Girl in a new series of adventures, and Killing Horace, an extremely funny Keystone comedy with all the Keystone stars, are also on the bill. The next instalment of the Million Dollar Mystery will be shown here Saturday for one day only, owing to the Chatterdon company playing here next week, Matinee daily at 2.30, 5 and 10 cents, special attention to ladies and children at the afternoon performances.

DAVIS THEATRE.

Popular Arthur Chatterdon Coming This Playhouse Next Week.

The engagement of the Arthur Chatterdon company at the Davis theatre next week will prove of particular interest to all who value genuine quality plus quantity. The fact that popular prices will prevail should make this announcement all the more attractive.

all the more attractive.

To begin with, the list of plays embraces the very latest of royalty bills, every one a Broadway success. Mount-ings in every detail are provided for, ings in every detail are provided for, giving each play its original staging, while in Mr. Chatterdon's support are so many favorites that an All Star company would be no misnomer. Among these the name of Rogers Barker will bring to mind many a pleasant thrill to those who enjoyed his excellent portrayals in the stellar roles, such as Brewster in Brewster's Millions, Plerre in Plerre of the Plains, Svengall in Trilby, Bill Powell in Hello Bill and many others during the palmy days of the Poli stock in this city.

in this city.

Then there is the old reliable James Huntley, not old in years, but in mature eperience. Walter Davis, Earl Howell, William McCarthy are all artists of ability while Lawrence Brooke will be favorably remembered as the leading man for the past 5 or 6 seasons in the support of Helen Grayce. The Misses May Davenport and Mae McCaskey have several seasons of stellar engagements to their credit, whereas Miss Adelyne Bushnell has just completed a most successful engage. Huntley, not old in years, but in m completed a most successful engage-ment as star in the Lincoln (Neb.) Stock Co.

Such are a few of the many reasons why the company coming to the Davis theatre next week has been smashing records in every city played this sea-

Another feature of interest to the ladies is the 15c price to those among them who order their seats early for Monday night. They realize the num-ber is limited and that first come is first served at advance sale Friday morning at 10 o'clock when tickets for the entire week will be available at the box office.

COLONIAL THEATRE.

"The Toll," Remarkable Two Reel Feature, with James Morrison.

One of the strongest dramas of the season is the wonderful story that is the feature today at the Colonial the-atre. It is entitled The Toil, and fea-tures James Morrison, George Cooper, Dorothy Kelley, and other big Vita-graph favorites, For the comedy parts the screaming farce by John Bunny and Flore Finch entitled Such a Hunt and Flora Finch entitled Such a Hunt-er, is one of the most uproarlously funny comedy films ever seen and these two eccentric comedians appear to their best in it. Broncho Billy's Wild Ride is the splendid western drama with G. M. Anderson. Coming soon is the mammath five real energy soon is the mammoth five reel special feature, The Master Mind, with Edmund Breese. This feature alone is the talk of the country, dealing with an entirely new subject, which is not only entertaining, but instructive as well. The Love of Oro San is an expulsitely beautiful Japanese story for quisitely beautiful Japanese story for

It acts without assistance, tastes nice, and causes no properly as a substitute. inconvenience. Accept no substitute

radical. It perceives that most cars adhere pretty closely, in their new models, to what has become, to them, standard design. Motor car makers who produce, in their own plants, all the essential parts for their cars have big investments in machinery equipment; and what may appear to the casual observer to be minor changes in construction, often necessitate costly changes in plant equipment and operations. For that reason many manufacturers prefer to avoid radical alterations in their cars.

As an instance, the Eight-Cylinder Cadillac recently announced—a distinct departure from any previous American design—necessitated an investment of approximately half a million dollars in new machinery, tools, ligs, dies, fixtures, and other equipment. This investment, of course, will be spread over the production of thousands of cars and probably for a long period of time.

The new type of cylinder block and new shape crankcase demanded huge milling machines, different from those the Cadillac had used in the production of previous models. The same was true of the machines which cut the bevel gears in the rear axle. The teeth on the driving plnion and the large differential gear in the new car are of the helical type, which could not be formed with the equipment previously used. There are many other instances where new equipment was necessary, each calling for an additional expenditure. In the light of these facts, it can readily be understood why many manufacturers prefer to follow their own standard designs and avoid radical changes.

A duil, drab, muddy complexion, or an over-red, blotchy, pimply or freckled skin, can by a quite simple, harmless and inexpensive method, be changed to one of flower-like radiance and purity. One ounce of common mercolized wax, sold by druggists generally, will remove the most uneightly complexion in from one to two weeks. By lits remarkable absorptive power, the withered, faded or discolored layer of thin film-skin which hides the healthle skin underneath, is gradually flecked off in tiny, almost invisible particles. This is done so gently there is no inconvenience, and no trace is left on the skin except that of enhanced beauty. The wax is smeared on like cold cream before retiring, and removed in the morning with warm water.

If the skin be wrinkled or saggy, a face bath made by dissolving 1 oz. powdered raxolite in 1-2 pt. witch hazel, will be found most effective.
